

# Alabama Coastal Health Connections

**The health of humans, animals, and the environment are all connected!  
This is the One Health Concept!**

**Bacteria, viruses, and parasites can enter the water through runoff.**

**Contaminated water affects the fish we eat!**

**In some cases contaminated water can cause sickness in people.**

**SAFETY FIRST**

**BE SAFE!**

- Don't swim with cuts
- Don't touch dead animals
- Seek care if injured or sick

**Dolphins can also get sick from contaminated water and fish!**
